

THE GLEICHEN

VOLUME XXXIV NO. 11 GLEICHEN, ALBERTA, WEDNESDAY MAY 28, 1941

SUBSCRIPTION \$2.00 PER YEAR

ARMY CONVOY WILL BE GREETED BY GLEICHENITES

The army will "take possession" of more than 100 acres in a country that drive started at Okotoks on May 27. Ten vehicles will transport the miniature army of 120 officers, and men from town to town to give demonstrations of army life while all ranges from the setting up of a field kitchen to drilling manoeuvres, was a stern gun carrier going into action.

The military convoy will arrive in Gleichen on the morning of May 28. At ten o'clock there will be a parade through the town and this will be followed by displays by the infantry on the parade grounds. At noon the soldiers will have dinner at their camp and will then leave for Strathcona.

A gala occasion is planned for each point on the route, with local units of the reserve army, civic organizations, school children, Scouts and Girl Guides' troops and other organizations cooperating.

Parades with a military band will be held and in the evenings big campfires will be built and the soldiers will hold a camp sing song to the accompaniment of the band. These diverse military demonstrations will serve to introduce "life in the army" to men of the military who are anxious to do their part actively for Canada in the fight to maintain freedom.

32,000 men will be enlisted in the next two months in Canada. Alberta's quota is 2,600. Men are wanted for all branches of the service, including the new armored corps now being formed. There is a demand, too, for tradesmen of all kinds for the various units.

The military convoy forms the opening drive in Alberta's campaign to build Canada's fighting forces. Men of action who want to do their bit actively can be medically examined and enlisted by the recruiting party with medical board that accompanies the touring unit.

All places of business and school will close from 10 o'clock to 12 noon so that all may witness the demonstration put on by the convoy.

RED CROSS NOTES

(By Convent Mrs. S. E. Daffo)

A telegram has been received at divisional headquarters in Calgary advising of the complete destruction by enemy action of a Canadian Red Cross warehouse somewhere in England. Branches are being advised of this in the hope that an extra effort may be made by all workers in order to make up for this loss.

The loss includes surgical dressings, sheets, pillow slips, pyjamas, etc.

The local branch shipped 100 articles of hospital sewing on May 26th, and a large quantity of materials are on hand awaiting your helping hand to make them up. A few hours a week could well be spent on sewing that will most certainly be needed overseas.

Three large cartons were shipped last week containing 1200 surgical dressings, 35 knitted comforts, 42 articles of refugee clothing, 6 quilts and 2 complete linings of 64 articles each.

A quilt was received last week from the Meadowbrook U.P.W.A., this was included in the last shipment to headquarters.

Plans are underway to send our boys overseas parcels containing for the most part cigarettes and sweets. Anyone wishing to make a special contribution for this purpose may do so before June 2nd.

ITEMS OF INTEREST OF THE TOWN AND DISTRICT

Sgt. Lester, T. C. Boos of the 22nd Field Battery left Saturday night for Brandon for a month's refresher course in artillery.

Among the Gleichen visitors to Banff over the weekend were: Don Beattie, Miss W. Leggett, Miss Mary Downey, Miss L. Young, Miss M. Daffo, Miss G. Desjardine, K. Schmidt, Bob Riddell, Johnny Paul, R. Kneche, Red Leggett and Leslie Menard.

Alvettion G. Allen is holding an auction sale next Saturday in Arrowwood of household effects and many other articles. Anyone having anything they wish to dispose of may please come up to hour of sale.

TRIO YOUNG PEOPLE HONORED ON THEIR DEPARTURE

There was a small of refreshments at the home of Mrs. J. H. McLean and those who followed them, were very appreciative and had a million color film, ended up at the origin of the party. The party was a very pleasant one and the young people who have been with us for the last few years are now leaving us to conquer the world. The occasion was a party honoring three young people who have been with us for the last few years. The party was a very pleasant one and the young people who have been with us for the last few years are now leaving us to conquer the world.

A gala occasion is planned for each point on the route, with local units of the reserve army, civic organizations, school children, Scouts and Girl Guides' troops and other organizations cooperating.

All places of business and school will close from 10 o'clock to 12 noon so that all may witness the demonstration put on by the convoy.

There was dancing—with Bert James and his Indian war dance the highlight of the evening.

There was singing—with T. C. Brown trying—and oh, how he was trying—to make himself heard above the uproar in his leading of "Roll Out the Barrel."

There was a baptismal font—which few, including Jean McLean, felt for.

There was gaiety, there was laughter, there was a darn good time for all and above all there were cats, go cats, with Angel Food Cake, and Maureen at the distributing point seeing that everyone had enough.

When everyone had their full quota of fun, dancing, singing and angel food cake and had more or less sat down, Mr. Gooderham very calmly took the floor and called upon the three honored guests.

The first victim of his good natured remarks was Myrtle. She managed to make the centre of the floor and was presented with a lovely travelling bag, as a farewell gift to that she might remember the Gleichenites of Gleichen. She thanked everyone, she would never forget the kindness shown to her here.

Next came Wilma. Mr. Gooderham stated he had been asked to make these presentations, he understood that Butch was taking two women with him, but that he was relieved to no learn that Wilma was the "only one." She was presented with a nice travelling clock and responded saying that she would be back to see us from time to time.

Butch, with "that curly hair which is was shame to take from the ladies of Gleichen" was next. After some good natured bantering he was presented with a pen and pencil set, in a leather case, to be used when he is with the air force. Don thanked everyone for their kindness and promised that he would use the set to write at least a few letters back and that if he ever got over Germany he would certainly "drop a few for the people of Gleichen."

All three guests were then called to the centre of the floor and a grand party broke up with the singing of Auld Lang Syne.

Some gardens were badly damaged by the frost last Wednesday night. The gardens in the west end of the town seemed to suffer most.

Empire Day in town was exceptionally quiet, in fact it was more quiet than Sunday.

R. M. Stubbach wife and family of Calgary spent the week end in Gleichen and Arrowwood visiting relatives.

Mr. and Mrs. W. E. Thomson and family spent the holiday at Sylvan Lake.

Miss Peggy Yates of Calgary spent the weekend visiting her parents Mr. and Mrs. A. E. Yates.

INTERSCHOLASTIC MEET WAS HELD HERE LAST WEEK

The local elimination of the Bow Valley Interscholastic Field and Track Association was held last Wednesday. Contestants who placed well were able to take part in the centre meet which will take place Friday, May 30th.

School and individual standings follow:

VICTORY LOAN COMMITTEE PLAN CAMPAIGN

A meeting of the Citizens Committee on the War Loan was held in the town office Monday night.

In the absence of the official chairman, Mr. Thompson, Mr. Michael occupied the chair. Mr. Physician, unit organizer, explained the workings of the organization, and the following gentlemen were appointed to act on the respective committees:

Canvassers committee: Messrs. Beech and MacCallum.

Publicity: Messrs. Beech and Lester with power to add.

Applications: W. E. Thompson.

Special names: Messrs. Yates and Murray.

It was suggested that speakers be on hand when the recruiting convoy gives its demonstration on Thursday, to further explain how the resulting of man power must be backed up by the loaning of the money with which to buy the necessary tools for them to work with. Three two efforts are very closely allied and if you can't initiate you can do your bit by loaning what you can.

June 8th is being set aside as War Loan Sunday and arrangements are underway to have a real rally that day with an effort to bring home to the people the spiritual side of the

GLEICHEN CADETS SCORE HIGH IN COMPETITIONS

The Gleichen Cadets Company, composed of boys over 12 in the Gleichen school, have done very well in their shooting competitions. They have just been notified that they won the Strathcona B competition, emblematic of the championship of Alberta among town schools.

The Juniors placed second in the Strathcona A competition and the Seniors 4th in the Strathcona A. In the latter competitions they shot against all schools in Alberta.

Jack Wells will receive a Best Shot award for his target in the B competition.

Harold House has received the special medal for the highest total in the winter's shoot of the D.C.R.A. Walter Hayes and Edgar Taylor qualified for the bronze medal awards in the latter competition.

The cadets have also qualified for 22 medals awarded by Dominion marksmen.

Cadet inspection will take place June 28th. It is hoped that our cadets will continue to make a further creditable showing.

Mobile Kitchens

Junior Red Cross of Saskatchewan
Purchase Four At Cost

Out of savings of children in the public schools of Saskatchewan, some of them earned laboriously and with firm intention of young people to aid in the war as best they can, the standing committee representing the Junior Red Cross Society in Saskatchewan recently voted, out of a total of \$13,100.00 collected by the children since January, 1940, to pay on their part for four mobile kitchens, each costing \$3,100.00. In January the members had purchased the first unit of this kind of equipment at the same price, making with in this year a total gift, to the fire fighters of Great Britain and the thousands of victims, of five of these units, costing \$15,500.00.

The money was raised cheerfully and painstakingly. Some small groups in rural schools swept the school house for certain periods for small amounts; others arranged for entertainments to which their parents and friends came and provided a little in money sometimes as high as \$75.00 and \$80.00.

Since the first opening months of the war the children of Saskatchewan and all Canada desired to take a part in aiding not only the armed forces of the Dominion, as their parents have done, but also in procuring relief for the suffering groups of civilians, especially women and children who are the actual victims in largest numbers of the enemy's savage long range attacks and defences and communities.

The National Office of the Red Cross in London had made a recent request for Canadian people to provide 36 of these mobile kitchens. The January donation by Saskatchewan's children opened the performance and paid for the first. Up to present date 16 of these had been provided for paid for by clubs and groups of persons. Altogether, with these five, the Junior Red Cross Branches of the Dominion have made a contribution of five kitchens to the mobile kitchens, which have facilities for cooking full-course hot meals cafeteria style, are built in trailers, and are so designed that they carry a name plate stating that they were donated by the Saskatchewan Junior Red Cross.

Antidotes For Blitzkrieg

British Imperial Forces In Africa
Learning Many New Tricks

Antidotes for the German blitzkrieg are being developed every day in Tobruk on the blistering desert from weeks of constant contact, and that the best approach to a German tank is from behind on the side and not from the front, and that the best way to knock it out is to climb on top, pry open the lid, drop a live grenade inside and then on the lid five seconds to prevent the occupants escaping.

They have learned that despite the armor plating German dive bombers and fighters are vulnerable to rifle fire, for riflemen have shot one down while it was diving at them. Flame throwers hauled to the battle line by tanks, the British have learned, are easy prey to anti-tank guns. They are learning the German sappers' tricks, and the respect the Germans have for a British artillery barrage. From trial and error methods, they are learning the wrong ways as well as right ones, a case in point being that of a young subaltern who walked up to a stalled German tank, rapped on the door, and handed a fuse-cast grenade to the German who answered the knock. This technique failed because the Germans took one look at the grenade and sprang to safety out another door of the tank.

Words Of Inspiration

A Thought A Day For A People At War

"These are sombre days for us all. The freedom which is our heritage is in mortal danger. The angry flood of war is spreading relentlessly in thousands of towns to tens of thousands of homes. But we shall surely slay this tide."—Earl of Athlone, Governor-General of Canada.

Nature Does It

Nutritionists say that there is no harm in eating different fruits together for fear of combining different acids—nature sometimes combines acids in the same fruit.

Butter is made by the natives of Argentina by dipping a piece of skin bag behind a horseback rider.

Ever thought of it? The night falls but it doesn't break, and day breaks but it never falls. 2413

Air Force Radio Mechanics

Western Canada Took The Lead In Enlistments

Figures given by Canada's air minister, Hon. C. G. Power, showed how western Canada took the lead in enlistments of air force radio mechanics when an advertisement from Britain a few months ago for radio specialists.

The air ministry counted the whole country and soon obtained all available men with training. Then the call was issued on April 8 for 2,500 young men to train in the specific radio work, Regina, Saskatoon, Edmonton and Calgary led all Canada in filling the initial quota, and reports from all R.C.A.F. recruiting depots showed that by April 18 there had been 3,418 enlistments and 1,134 pending, a total of 2,552. In 10 days then the call was filled.

Actual figures obtained from the air minister showed that both Winnipeg and Vancouver achieved increases of 50 per cent. over the original quotas allotted to them. Winnipeg started with a quota of 250 on April 8, and two days later the recruiting report was 50 enlisted and nine pending. But by April 18, the figures showed a big surge and there were 173 enlistments and 238 applications waiting. The authorities then raised the quota to 500, and by April 28 the standing was 205 enlistments, 257 pending. Later the quota was raised again, and as Mr. Power said, "we got them."

Vancouver started with a quota of 150 and in two days had enlisted 37 with 11 waiting. By April 18, the Vancouver standing was 102 enlisted and 15 waiting, rising by April 28 to 146 enlisted with 52 waiting. The quota was raised to 200 and it was filled by May 15.

In both Winnipeg and Vancouver heavy enlistments came from university undergraduates it was reported. The boys have already gone to work for the army and the western points being the air school at Penhold, Alta. They move shortly to special courses at universities and after 13 weeks training they will go overseas for additional operational training and actual service. They start out as aircraft mechanics at \$13.00 a day, receive promotion at the end of the course to leading aircraftmen at \$15.00, and about five per cent. qualify for commissions.

The air ministry will pay the university \$200 tuition for each radio mechanic. The course will include 250 at the university of Manitoba, 80 at Saskatoon, 120 at Edmonton and 150 at U.B.C., Vancouver.

SELECTED RECIPES

PREMIUM PIE

1 cup diced cooked carrots
1 cup cooked lima beans
2 small onion, minced
2 cups diced cold beef
2 1/2 cups beef gravy

Put in a greased hot casserole. Add onion and diced beef to gravy and heat. Season to taste. Turn out on a platter. Cover with buttered Premium soda crackers and place under broiler heat until crackers are a delicious brown. Serve immediately.

NOODLE-HAM CASSEOLE

1 1/2 pound fine noodles or macaroni
2 quarts water
1 tablespoon salt
2 tablespoons butter
1 tablespoon flour
2 cups stock
1 teaspoon salt
1 teaspoon pepper
1 pound cooked ham
1 cup oven-popped rice cereal
1 tablespoon melted butter
Dash paprika

Cook noodles in boiling water to which salt has been added. Drain. Melt butter in saucepan, add flour and stock, which may be made by dissolving two bouillon cubes in two cups boiling water. Stir well. Add salt. Add salt and pepper. Add ham and mix with noodles. Add thickened stock. Pour into casserole. Crush oven-popped rice cereal over the top. Sprinkle with melted butter. Bake paprika. Bake in moderately hot oven 20 minutes.

Yield: Six servings.

Life in the army must be healthy and pleasant; many recruits in Canadian training camps are reported to have so increased their weight that they require new uniforms of larger size.

The city of Freiburg, near the Black Forest, has at different times belonged to Austria, France, Italy, Sweden, and now Germany.

Smoke them regularly.

A Continuous Effort

The campaign recently launched and prosecuted with considerable vigor in cities, towns and villages and throughout the countryside to salvage waste materials which can be converted into munitions of war or used indirectly for war purposes will rank as one of the many valuable contributions which Canadians have made and are making in the all-out fight to give Nazism a knock-out blow.

With the completion of the first onslaught on hordes of hidden but useless treasures—useless to those who have been harboring them, it will be found that thousands and thousands of tons of materials which could not possibly serve any useful purpose stored in attics and basements and lying in waste heaps have been recovered and made use of as an aid to the greatest objective in Canadian history—the defeat of Hitler and concurrently the preservation of freedom and democracy.

A careful appraisal of materials which can be of value in the war effort reveals an astonishing variety and range of commodities which have been regarded as debris in industrial life, such things as bottles, rags of all kinds, old socks, old clothing and many other materials and discarded articles, which can be rehabilitated and made to serve a useful purpose.

Woolen rugs undergo a transformation that is hard to believe. After this type of rug reaches industry, through the voluntary salvage groups, the transformation begins. They are thoroughly cleaned, sterilized and then shredded. The shredded material is next mixed with live wool and the combination is woven into several kinds of heavy cloth which makes blankets and uniforms, so essential to the comfort and needs of the armed forces. Collecting wool rags and turning them back into industry is definitely a direct contribution to the war effort.

Not are cotton rags less valuable to the cause which they people of Canada are espousing. While or colored, cotton rags find their way finally to factories which make "wattle" for machinery wipers. An old household, which seems of so little use, if contributed to the local salvage campaign may eventually be essential to the comfort and needs of the army that is turning out a bomb to be dropped on Berlin.

Other Textiles Valuable

Other types of secondary articles can be used in the war effort. Linens, for example, are being turned back into industry to make the fine grade of paper needed for important military and state documents. Even old silk stockings may be turned to good purpose, as is now being done in the United States, where they are unwoven and the threads that still have tensile strength are being used a second time, a possible use which is now being investigated by the Canadian department of national war services.

Jute sacks are still another source of material which have salvage value. Owing to the slow delivery of jute from India and the problem of getting shipping space, there has been difficulty in supplying the needs of the Canadian market with new bags. As a result, second hand jute bags have appreciable value.

The value of old machinery and metallic waste in other forms, such as discarded iron, steel and other metals is almost too well known to need comment. They can be used in the manufacture of munitions and other forms of war material and equipment.

In a country which consumes large quantities of canned goods, it seems unfortunate that the salvage of tin cans is not an economic feasibility, at least, at the present time, and especially in view of the fact that tin is one of the most valuable of war materials.

Some time ago the Canadian department came to the conclusion that nothing could be done to make use of discarded tin cans, due largely to the cost of transportation over long distances and the expense of processing before the old cans can be turned into a useful material. Even in the United States, where conditions are much more favorable for collecting and converting tin cans into useful material than in Canada, it has been found impracticable to do so, after experimentation in de-linting factories in New York, Chicago and San Francisco. A committee of the National Academy of Sciences in the United States has also recommended that the establishment of more such factories "unless and until an emergency in the supply of tin renders it imperative to conserve tin without regard to its cost."

An Accelerating Need

The work that has been done to date is undoubtedly of untold value to the Canadian war effort, but the first enthusiasm has worn off, the effort should not be allowed to languish. On the contrary the collection of salvageable material should be a continuous process, not only because there will be less of it available, once the first great accumulation of years of waste material has been disposed of, but because the need for it will accelerate as the war progresses and becomes more protracted.

Citizens can continue to serve their country well and further promote the war effort if, from now on, everything that could possibly be of use is set aside, sorted out in the process of laying it up for future use and held until sufficient materials are available to make delivery worth while or until the call again goes out for more waste.

Two Fine Speakers

Mr. Menzies, the Australian Prime Minister, is a student of poetry. He also reads and sometimes recites modern poetry. Many consider that Mr. Menzies is the finest orator alive. He schools his ear to the cadence of words, he speaks and delivers among the British is Lord Sumner. He holds no position in the Government.

Good Cash Crop

Brome grass seed is proving to be one of the best cash crops in Alberta. In 2,000,000 pounds were produced last year, a quantity that have been needed a wide area had it not been sold largely to the United States.

"And were you cool in the thick of the battle?"

"Cool. Why I fairly shivered."

"I WANT TO TELL EVERYBODY HOW GOOD ALL-BRAN IS TO RELIEVE CONSTIPATION"

If you have been doing yourself with harsh cathartics, try ALL-BRAN's "Better Way." Eat it every day and drink plenty of water. Remember this crisp, delicious cereal is a real work-like purgative. It takes time. Get ALL-BRAN at your grocer or drug store. For convenience in individual servings packages at restaurants. See Kellogg's in London, Canada.

For 13 years I had suffered from constipation, trying all kinds of remedies without any hope of cure. Then I started eating KELLOGG'S ALL-BRAN regularly. It was a marvelous result. I wish I could tell all people who are suffering from constipation how good ALL-BRAN is to relieve it." See Kellogg's in London, Canada.

SEEDTIME and HARVEST

By
Dr. K. W. Neashy
Director, Agricultural Department
North-West Line Elevators Association

An Invitation.

During the past winter 4,870 different samples of farmers' seed have been sent in to The North-West Line Elevators Association for germination tests. As a result of the prevalence of frost damage in northern areas, particularly to oats and barley, the results of the tests have been of great importance to farmers availing themselves of the service.

About 2,600 farmers have asked us to make growing tests in the field in order to determine the varietal purity of their stocks. We have undertaken to do this for wheat varieties only. In oats, varietal purity is hard to establish and it is not worth the cost of seed, purity is of small concern except to seed growers. Barley is more difficult than wheat, and we hesitate to burden university or government cerealsists unduly.

We shall, therefore, have about 2,600 samples of wheat seed planted for purity tests. In nearly all cases, the seed will be identical with the crops the individual farmers carried over growing, since they voluntarily sent their own seed in to us. The plots will be located at the University of Manitoba.

I take this opportunity of inviting farmers and others who may be interested to visit our plots in Winnipeg this summer to visit our laboratory and plots. Our address is 765 Grain Exchange Building. At the same time you can visit the Dominion Grain Inspection Office and the Grain Research Laboratory of the Board of Grain Commissioners.

THE WORLD OF WHEAT

For good health the foods consumed daily by human beings must contain a minimum of precious element, vitamin B₁.

Certain animal products, such as liver, heart, kidneys and particularly pork in its various forms, have a high content of vitamin B₁, and it is through the medium of these foods that people normally obtain this vitamin which their health requires.

The war, however, has greatly reduced the quantity of these meat products available to European people, but it has been found that vitamin B₁ can be added artificially to flour and bread. This now by law must be done with a flour and bread consumed in Great Britain.

A Canadian Dominion committee under the supervision of Dr. L. H. Newman, Dominion cerealist, has found a method of making a palatable white loaf, that contains quite a large amount of vitamin B₁, out of the new rust-resistant wheat varieties which apparently have a higher content of vitamin B₁ than ordinary wheats. Another method proposed is to use the whole wheat kernel after having merely removed the germ and outer skin. It is claimed that this skinned kernel makes a palatable loaf high in vitamin B₁.

Out of these different methods and experiments it is hoped that bread will soon become more nutritious and so, it is further hoped, will be consumed in greater quantities.

RUSIE AND THE SOLDIER

Editor Call:

Our reverses in Libya are the result of a grave error of strategy. When we failed to push on to Tripoli and stop the gap, we missed the bus. Our enemies have landed troops and mechanized equipment at Tripoli and all our gains have gone a glimmering. The capture of 5,000 soldiers and three generals by a cyclist detachment has sent a shiver through the Empire. It recalls a remark made about the Bourbons that they never learned anything and never forgot anything.

The success of the Germans on land is due to their superior strategy, mechanized equipment and the physical fitness of their troops. The shock troops, that smashed up Jugoslavia in five days, shun tobacco and alcohol. This is something to be contemplated by those dear souls who think that the main thing in war is to keep the soldiers well supplied with smokes. Battles are won by bombs, bullets and self denial not by sox, cigarettes and tough soldiers who have lived a life of the pampered and the physically unfit who quit the clearing stations and lines of retreat. The waste of materials and effort in war is appalling. Rusie knits sox for soldiers, and it would be more to the point if Rusie planted potatoes instead.

The League of Nations has lapsed into a state of innocuous desuetude, and it were better that it had never existed. The Little Entente and the Big Entente, which rode high and handsome through Europe, have been smashed to smithereens. Hitler rules from the Atlantic to the Black Sea through some countries without firing a shot. Fitch a state of demoralization would not have happened 50 years ago. It was the days when a threat of injustice would have aroused the entire Christian world.

ON BOARD BRITAIN'S MIGHTY "KING GEORGE V" — Newest and mightiest battleship of the British Navy is "King George V". Much of her armament is still secret but it is known to include gun-turrets more powerful than any ever carried before. This picture shows "look outs" during a call to "action stations."

Now they are so preoccupied with social security and the high standard of living that they care not a hoot what happens so long as they save their own skins.

The Empire is in need of more proof, bare proof, and fool proof plan of campaign which will stand up against the exigencies of economic

and military war fare. It fell to the lot of Winston Churchill to chase John Bull out of a funk hole where he had been for 25 years. And, considering that that started rearmament from scratch, they are putting up a fight that astounds the world. The British Commonwealth is menaced by fascist devils, mad devils, red

devils, yellow devils and Devils. The latter is an avowed enemy and makes no bones about it. It is high time that any part of the Empire, which enjoys the advantages while refusing to share the responsibility, be shown where it gets off. The contemporary press speaks of

the enigma of Russia. There is no enigma or mystery about the Soviet Union. The bolsheviks have long since liquidated the intelligentsia and shot out all brains of the populace. By terror, torture, and mass murder, the Russia of the Cezars has been reduced to a hulk of cowering imbeciles. If there is one who deserves the hangman's noose or assassin's bullet, that one is Josef Stalin. So mote it be. F. B. FURNHAM, Brigadier-General, Halcyn Hot Springs, B. C.

Why CANADA MUST BORROW \$600,000,000

A Statement by the Minister of Finance

In money alone, this war is costing Canada in round figures, \$4,000,000 a day. That is three and one-quarter times the daily cost of the last year of the last war. This conflict costs so much more because it is a battle of giant, swift machines . . . as well as of men. And to build other than the very best machines would be futile. They must be worthy of our men.

Canada dare not . . . and will not . . . sacrifice men for lack in quality or quantity of fighting machines. Hence we must produce them on a scale hitherto undreamed of.

To do this, Canada needs now to borrow from her citizens at least \$600,000,000 in addition to the revenue raised by taxes. To obtain this money Canada will on June 2nd offer Victory Bonds.

Fortunately, Canadians have the money to buy these Victory Bonds. This is shown by a greatly expanded

national income and by record savings deposits.

If every person who has savings or who can make payments out of wages or income will invest in Victory Bonds, the Loan will be quickly subscribed. But the wholehearted support of every citizen is necessary.

What Canadians have done before, Canadians can and will do again. Our population was over nine millions in 1918 and 1919. Yet in November, 1918, our people invested \$616,000,000 in Victory Bonds. Eleven months later, in October, 1919, they invested \$572,000,000. The total subscribed for Victory Bonds in those two loans was \$1,188,000,000. This year, with our population increased to more than twelve millions, the nation that did it before can do it again—and in greater measure.

The terms of the Loan will be announced May 31st. Get ready to buy every Bond that you can.

R. H. Mulvey
MINISTER OF FINANCE

THE RUM ISSUE

BY FRID JONES
This Column Gives to News of the
Gleichen Branch of the Canadian
Legion

Stand To!

Since I last sent any news of in-
terest we have left Kananaskis, came
to Mewata and are now at Currie. I
suppose I should not reveal where we
are but we could be located in the wet
caneen anyhow.

In mentioning former Gleichenites
I made a mistake. I spelled Lieut.
Founer's name Fowmes which is
wrong. However, as he is a good Irish-
man he let it go.

Our Officer Commanding in Major
P.O. Bull, M.C., who comes from
Orangeville, Comrade Jeffers and
Jack Robinson should know of him.
That is the place in Ontario, where
Bert Stubble used to take time out
to tell us about when we wanted him
to draw a couple of quick ones.

We had a medical board recently
and much to our regret a few good
comrades fell by the wayside. However,
ever, the last war was quite a while
ago after all and it is surprising how
many of the old 1914 warhorses are
fit now. The heart may be willing but
time marches on and the Hindus say
we are "on the wheel."

Many people in the city entertain
soldiers on weekends and in general
find them real gentlemen, but others
have had some disappointing experi-
ences. One couple, who lost their only
son, brought down in the air battle
over England, invited any two air-
men for Xmas dinner in the hope they
might partly dispel the lonely at-
mosphere. After preparing a swell
spread the airman failed to show up
and the poor old couple was left to
eat alone. These stories are excep-
tions as the others are never heard
of and I will tell you another one so

two I can vouch for.

An airman out here under the Em-
pire scheme who only arrived recent-
ly tells me that the British people
have suffered heavily but they have
not the slightest thought of giving
up and women and children as well as
those in the forces are equally deter-
mined to see it through.

I heard that Major Dodgson and My
House were in town but missed them.
Gerry Phillips, orderly room sergeant
on the 95th Battery, told me they
were mobilizing and the O.C., Major
Guy Franko would like to get his
men, already trained, to join.

I met Sergt Jack (Chalky) White.
He has been sent back from the 22nd
Battery and when I last saw him he
had not yet found where he would go.

I suppose Dave Wilson has the
yard full of game chickens by now
and should do well this year as I won't
be accused of stealing any.

Famous last words: Help your pres-
ident, Wm Oiler, by paying your dues
for 1941. He has been president be-
fore and you all know he is one hun-
dred per cent for the returned men.

THE PRESS AND PROPAGANDA

One of the ever present dangers
in the publishing field is the possi-
bility of becoming a propaganda agency
for some group or cause. Editors
guard carefully against this possi-
bility, and their efforts to be fair some-
times incur the displeasure of those
whose propaganda they refuse to
propagate. Of course there are two
kinds of propaganda—good and bad.
The word propaganda has been much
abused in the past few years and to
the man on the street propaganda
now seems to mean exclusively that
type of news sent out by the enemy
to confuse and confound those who
read it.

Propaganda is actually the method
adopted for the propagation of doc-
trine and principles, either religious
or secular. If there is such a thing
as good propaganda the question na-
turally arises, why does the newspa-
per not become a propaganda agency
for all propaganda that is good? As
a matter of fact the newspaper does
become such an agency in a broad
sense, but not in just the way that
some propagandists would have it.
For instance, any religious sect
might consider its propaganda good,
and therefore entitled to space in
the newspaper. An important factor
is overlooked however in this reason-
ing. Propaganda acquired and sup-
ported by a newspaper must be of
a type generally beneficial to the
community as a whole. It would not
be fair or ethical to use the propa-
ganda of one church, where there are
perhaps a dozen churches in the
same community.

Then too, there is often confusion
in the minds of many people as to
what is news and what is propa-
ganda. For instance, an item relating
to an actual event which took place
in a church, or lodge, or a service
club would be news. On the other
hand an item which sought to impress
the reader with the principles or the
doctrine of the organization, that
type of newsmatter which seeks to
polarize or convert the reader to
one particular code of ethics, prin-
ciple or doctrine.

The position of the newspaper is
clear on this point. The newspaper
is representative of the whole com-
munity, and while its editor or pub-
lisher might be an Anglican, Baptist,
Presbyterian, United Churchman, or
Roman Catholic, it would not be fair
to give undue prominence to the doc-
trines of the sect to which he per-
sonally belongs. News is another
matter. If more news comes from
the United Church because it has more
organizations, or because its press
secretaries are more wide awake,
than naturally that church would re-
ceive more space in the paper than
the Anglican or Baptist. If these
churches were not so well organized
or did not possess good press sec-
retaries.

Weekly newspapers depend to a
very large extent upon correspond-
ents and press secretaries for news
items, and this being the case it is
timely to remind correspondents and
secretaries that the newspaper is
interested primarily in the news, and
not in acting as an agency for dis-
semination of their principles. This
reasoning however does not preclude
the newspaper drawing attention to
any special effort made by any or-
ganization or institution within the
community.

To sum up the attitude of the press
toward propaganda it should be
clearly understood that the press is
interested in the events concerning
organizations, rather than the ethics
or principles which attract one to
membership in these groups.
